BH&J Pro (Bridal Headpieces and Jewellery)

STARTER PACK

Once you sign up for BH&J PRO online course, your tutor will be in touch to discuss your personalised starter pack.

The standard pack is described below. You can tell us what your favourite colours are so that we can send you a selection of beads you will love working with.

The pack will be personalised to suit your needs. If you already own a tool set or want to purchase one locally, we can send you an additional pack of beads instead.

Your pack will contain a selection of top quality components such as genuine Swarovski® crystal beads as well as a pack of plastic beads that are ideal for training purposes.

Tools

The standard starter pack includes round nose pliers, chain nose pliers and wire cutters:

Beading Components:

100 x genuine Swarovski® crystal xilion beads (bicones)
(a mixture of 4mm and 6mm crystal beads)

100 x genuine Swarovski® pearls
